EDUCATION

GITAM University, Visakhapatnam.
B. Tech CSE-AIML(2022-2026)
Grade: 9.46

Narayana Junior College, Visakhapatnam.
Intermediate (2021-2022)
Grade: 428

Narayana High School
C.B.S.E (2020-2021)
Grade: 444

TECHNICAL SKILLS

- **Programming Languages:** Python, C, Java
- **Database:** MySQL, OracleSQL
- **Web Technologies:** HTML, CSS, JS
- **Backend:** JavaScript
- **UI/UX:** Figma, Canva
- **Tools:** Git

CO-CURRICULAR ACTIVITIES

- GitHub Community GITAM :
- **Web Development Lead (24-25)**
- VolleyBall Club GITAM :
- **Documentation Lead (24-25)**

EXTRA-CURRICULAR ACTIVITIES

- Organized hackathons, workshops, and webinars as part of GitHub
- Volunteered for Student Induction Program

ACHIEVEMENTS

- GITAM Hackathon

SUMMARY

I am a driven professional with expertise in AI, Machine Learning, Python, and web development. Proficient in C, Java, SQL, and UI/UX design with creative skills in Canva, I am dedicated to solving complex challenges, uncovering patterns, and delivering impactful solutions. I thrive on continuous learning and pushing the boundaries of innovation in technology.

EXPERIENCE

Oasis InfoByte (Web Developer Intern)

June 2024-July 2024

- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Developed user-friendly web forms with validation and error handling.

Prodigy Infotech (Front End Developer Intern)

May 2024-June 2024

- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms. • Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.

PROJECTS

AI Problem (Access Project Here)

December 2024 - Present

- Solved fundamental AI-based problems like Vacuum Cleaner, Monkey-Banana-Chair, and Water Jug problems.
- Demonstrated knowledge of search algorithms and logical reasoning to implement efficient solutions.

Machine Learning Projects (Access Project Here)

September 2024 - October 2024

- Explored and worked on various basic datasets, performing training and testing using multiple machine learning algorithms.
- Gained hands-on experience in implementing models and evaluating their performance for data-driven insights.

Login & Register (Access Project Here)

June 2024 - July 2024

- Developed a fully responsive user authentication system using HTML, CSS, and JavaScript.
- Implemented features like user registration, login validation, and secure page access with data management via localStorage.

Portfolio(Access Project Here)

May 2024 - June 2024

- Explored and worked on various basic datasets, performing training and testing using multiple machine learning algorithms.
- Gained hands-on experience in implementing models and evaluating their performance for data-driven insights.

Weather App (Access Project Here)

May 2024 - June 2024

- Built a weather application using HTML, CSS, and JavaScript to display real-time weather conditions, including temperature, wind speed, and humidity.
- Designed with a fully responsive layout for seamless functionality on desktop and mobile devices.
